In a flawed dystopian society, it's humans versus mystics. And the humans are winning. When the Infinity Witch warns Asher to return to his own kind, he doesn't listen. Asher Xavier, a hybrid vampire, chooses instead to live a lonely neutral life, withdrawn from both mystics and mortals. A life alone is better than a life of imprisonment at the hands of the humans. The solitude doesn't bother him... Until he meets a fragile human girl who changes everything. Now Asher will risk his safety to protect her, altering the course of his life forever.
