Lucy Hutchinson (b. 1620) wrote *Memoirs of the Life of Colonel Hutchinson* to "moderate her woe" and to defend her husband against the allegation that he was not a "gentleman." She presents Hutchinson as a creative, generous and kind man, a hero whose just allegiance to the Puritan cause resulted in his ignominious imprisonment and death at the Restoration. In so doing, she writes a moving tribute and a shrewd political analysis of this tumultuous period.
