Mary Stuart returned to Scotland from her sojourn in France a royal widow, young, vivacious, eager to love and be loved. Fresh from the gallantries of the French Court, she found her own kingdom a dour place peopled with suspicious fanatics determined to distrust whatever she might do. Mary married the weak, drunken Darnley, then turned to her devil-may-care lover, Bothwell.

And all around her, traitors waited, swords in hands, for her downfall. From the romantic, tragic story of Mary, Queen of Scots, Philip Lindsay has woven a historical novel of compelling power and superb accuracy, portraying a cast of characters and a period of history so vividly that the reader might well by living in Mary's sixteenth century kingdom.
