Marriage is like a deck of playing cards. In the beginning all you need is two hearts and one diamond. But as it progresses, you wish you had a club and a spade. Tired of hearing the usual marriage jokes where husband is the victim and wife the boss? Or where marriage is projected as the end of a meaningful existence? Time to get over that and understand how to run the business of remaining Happily Married! This book is not a sob story, a boring lecture, a never-ending self help guide or a preach rant. In fact it is a list of 69 points that will throw light on what to expect, what to accept so all you see is ascent in marriage and not eject out of it!
