Discover the Origins of Minecraft... Since time immemorial... ..a race of miners harnessed the power of elements to create blocks of power where they can build a world from where they could watch over all of existence. The Planet Minecraft they divided the planet into 7 dimensions.

Of all the threats the planet ever faced... the gravest was an entity of fear known as Herobrine. Only the legendary Sky miner was capable of capturing and imprisoning this ghost, which he did in the Afterworld. This is the story of how it all began... It was said that one must be without fear, in order to defeat Herobrine... Click to Look Inside! Read "How It All Began..."
