For homeschool parents overwhelmed at the prospect of teaching their teenagers, High School @ Home offers great help. This user-friendly educational guide enables busy moms and dads to:

- Design a program based on your student's future goals.
- Understand college entrance requirements.
- Establish guidelines for your high school course of study.
- Credit and grade textbook, living book, and project courses.

- Calculate a grade point average.
- Compile a transcript.
- Create courses which meet the unique needs of your student
- Keep simple but thorough records.
