The E-Business (R)evolution is a complete handbook and briefing for every entrepreneur and executive making e-business plans. Daniel Amor offers fresh insight into the significance of each new e-business technology, from Web application servers to XML, open source to Internet chat.

He also previews the fast-approaching era of pervasive computing, where everyone and everything is connected - and its implications for your business. Whatever your role in planning, deploying, and managing e-business solutions, The E-business (R)evolution is an unparalleled resource.
