The East wants children. The Severed Plane's most rampant possessors and body boilers, The Eastern Witches, have been given unprecedented power to get them. Across the world, children are caught under a spell of unfathomable evil, hunting other children, spreading the East's venom. The Operatives have never seen such brazen attacks on humankind.

Magical walls are coming down and dark forces are rising from the depths. And the Operatives are one down. Calan Taylor is missing. Their most important Operative is broken, his life is no longer his own. Charlie Pelagic haunts him ... and Charlie won't stop.

Calan is an unwitting player in Charlie's unstoppable end game. The third book in the mind blowing, The Otherworldly Operatives series, will leave you gasping for air and wanting more. For fans of Skulduggery Pleasant, Percy Jackson and Harry Potter.
