I've posted ACCALIA a werewolf short-story. It's a free download. <https://gabrieljm.com>

com/book-room Tony Marotti, an Italian drifter, encounters a lost family of three in the woods South of the border. He offers to guide them to safety knowing deeply that an Urban Legend werewolf "Accalia," best know in Mexican culture as a Nahual, is very real. The wolves will be rest and hungry each full moon. Tony knows the wilderness well. However, the horror that lies in wait is irreparable.
