Isaac and his Master Aubrey have been together for five years. In that time, Isaac has had numerous tattoos and piercings, his master slowly modifying his body, re-creating him. Now, though, his master has decided that it's time for subdermal implants, pearls to begin with, in a very sensitive area. Isaac isn't sure about the idea, but he trusts his master with all of himself and is more than willing to take this journey deeper into body modifications, knowing it will bring them closer than ever. Only time will prove whether his trust is rewarded.

\* Body Modifications is part of the Sealed With a Kink series but is a standalone romance.
