Two people who live in an old farmhouse in Snozfield, Australia, are very confused. Papa Smith keeps losing things and Mama Smith can't find them either...

but she does a lot of sneezing while she is looking for them. A cheeky visitor is the culprit who is discovered in the end.

This is a funny rhyming story for pre-schoolers full of loud sneezes and captivating illustrations. The story is based on a true one although it is highly exaggerated. No characters depicted in this book resemble real people...

well let's hope not.
