[Her Mouth Looked Like a Cat's Bum.epub](#)

This excellent collection of short stories by Matthew Ward is humorous, poignant, and contains much local color, of the Australian kind. Readers will be happy to read these unusual and witty stories, with their unique characters, placed in strange situations that seem altogether real, as written by the expert hand of Mr. Ward. Brian Childs writes, "Matthew Ward has a distinct gift for crafting original stories, that are absurdly funny and entirely plausible, where the reader never knows what might happen next."
