Gay erotic short stories with frequent and explicit sex. Twenty short stories of gay sex set in historical scenarios, which span from the earliest days of proto-humans to the last century. And in every story, you find a gay man enjoying the attentions and affections of other gay men, and the sex is hot, heavy and filled with manly passion. FULL DISCLOSURE: This book incorporates the eight stories of my prior book with the same name, and adds stories which have appeared here and there among my other books. If you have bought a significant number of my other books, you may want to double-check the titles you already own for duplicates.
