From the author of *Wildwood Road*, and *The Ferryman*, comes Christopher Golden's first-ever collection of short stories. *The Secret Backs of Things* takes the readers into a realm rich with legends, folklore and myths, while still finding a place for some modern horror. Illustrated by Glenn Chadbourne, *The Secret Backs of Things* is Christopher Golden at his best. Chilling, harrowing and, at times, more than slightly unsettling, this collection is sure to excite and entertain longtime Golden fans and new readers alike.
