Everyone has to deal with the possibility of a sudden job loss; no one is safe in today's work force.

People need a simple, easy-to-follow plan to find that next job, because now it's both "blue collar" and "white collar" people standing in line. Education and a little bit of confidence equals more money and happiness for that next position. Knowledge, common sense, and confidence can change your life. The question that many people ask is, "How can I do a job search for free?" Knowing where to go for help is the answer. This book covers topics like: Opportunity Knocks Twice: Effects of the Wallet. Finding Free Money: Identifying unemployment benefits. Panning for Gold: What has the Library got to offer? Right from Wrong: Legal and Illegal Questions. Reward Yourself: Non-Chocolate Ways for High Motivation. Plus many more chapters for doing a complete job search!
