In a Nutshell - What's going on in America today? Why are we over our heads in debt? Why can't the politicians bring debt under control? Why are so many people working at low-paying, dead-end jobs and still making do with ? Is a massive depression coming? Why does the government tell us inflation is low, when the buying power of our paychecks is diminishing at an alarming rate? Only a generation ago, bread was a quarter and a new Volkswagen sold for \$1,995! But most importantly, how can we protect our families during the coming crash, and maybe even profit from it? You'll find the answers to these questions - and many more in this book.
